CATALOG

RANUNCULUS

The very double Tecolote Giant strain grows well from seed. It produces quantities of beautiful blooms in early spring and the bulbs increase for fall replanting. Pkt. 25c.

DELPHINIUM

New Pacific Giant Hybrids, with huge flowers on beautifully balanced spikes, white, wonderful blues, and the new rose shades. Pkt. 50c and 75c.

MARIGOLD GLITTER

The best of the popular Chrysanthemum-flowered Marigolds. The blooms are golden balls for sunny fall bloom. Pkt. 15c.

TITHONIA TORCH

Top winner in the All American Selections for '51. Torch blooms from August till winter. Best of all it is only waist high. Pkt. 25c.

SPECIALTIES FOR 1951

DELPHINIUM ASTOLAT

The first of a group of entirely new shades, with which the hybridist has been working for many years. The color variation extends from blush pink through lilac pink to deep raspberry rose. This is another of Vetterle and Reinelt's Pacific Hybrids. Originator's seed. Pkt. 75c.

TITHONIA TORCH

Top winner in All-America selections for 1951. The brilliant flame red flowers bloom from August till cold weather. Thithonia is easily grown and thrives on heat. The plant is a new compact, waist high type so desirable for garden effects and cutting. Pkt. 25c.

ZINNIA, PEPPERMINT STICK

AFRICAN VIOLET

The deep violet blue Saintpaulia is a favorite pot plant. This fine strain is grown by a European specialist. Growing instructions are sent with the seed. Pkt. 50c.

ZINNIA PEPPERMINT STICK

A new zinnia type with fascinating color stripe combinations, red and white, red and yellow, pink and white, orange and yellow, purple and white. It is a "cut and come again" variety which blooms constantly. Pkt. 25c.

SNAPDRAGON NARAMEK

A 1951 introduction, this strain is striking for beautiful extra-size blooms, long, thick flower spikes, and very tall strong plants. The color range includes many unusual two-tone effects. Pkt. 25c.

CLIMBING PANSY

An unusual Pansy which can be trained to a height of 3 or 4 feet. It was first a florist development for length of stem and abundance of flowers, and now is popular for trellis growing in garden or sun room. It also trails gracefully from pots, hanging baskets and window boxes. Pkt. 50c.

CLEOME HELEN CAMPBELL

At last a tall vigorous pure white companion to Pink Queen. Beautiful landscaping effects can be obtained by interplanting the two colors. They will bloom all summer virtually disease and pest free. Pkt. 25c.

Campbell's have been offering outstanding new introductions for years.

The seven listed here for 1951 you will really love. And you may have the 7 for only.....

Campbell's DEPENDABLE SEEDS

Since 1907 Campbell's Seeds have been collected from the best possible sources of the world, rare-plant specialists, foreign companies old enough to be traditions, and the wide, sunny valleys of California. They have been growing their own reputations in gardens all over the United States. Let them grow a reputation for You and Your Garden.

All seeds and books sent postpaid; prices of roots and plants do not include postage. All prices subject to change without notice.

Directions and advice are part of our service. Call on us when you want to hire a gardener.

Ask for our Bulb List, ready by mid-August.

Should you not find the certain variety of seed you want in this catalog, ask us for it. We are in touch with the leading growers in this country and can obtain kinds not in stock in from 3 to 10 days, if they are available.

In the brief descriptions of flower seeds that follow we have compiled much information for most of them, such as germination period, time best for sowing, duration of plants (whether perennial) (Per.), plants growing and flowering for several years; biennial (Bien.), growing the first year to flower and die the second, and annual (assumed to be the duration if no other habit is indicated), and notes on culture. The colors found in each genus indicates the normal color range but need not infer that all these are available in separate colors.

FLOWER SEEDS

AURATUM LILY

Lilies from Seed

Growing lily bulbs from seed is becoming a popular hobby with amateur gardeners. Really fine bulbs can be raised from seed with a little patience and care. Seeds should be sown in flats of soil prepared by mixing good garden loam with equal parts of sand and leaf mold or peat, covering with ¼-inch of sifted mixture. Press firmly and soak the flat in water, after which it is placed in a shady place to await germination. Seed may be sown at any time. The little plants first make root growth and bulbs before showing any impressive top growth. They should be transplanted the second year into larger flats of prepared soil with a little bone meal or to specially prepared beds outdoors. The following year they should be large enough to go into the garden. Species germinating readily are marked with an asterisk (*) before the name.

LILIES, True *Lilium* Species. Per. lil'-i-um.

Part shade or sun if root area is cool and moist.

Auratum var. platyphyllum. Gold-banded Lily. Outspread white petals, each striped with a yellow band and spotted with crimson; fragrant; 4 to 7 feet. Blooms August-September. Pkt. 25c.

Bellingham Hybrids. Most desirable for garden color and cutting; recurve flowers, yellow to scarlet, spotted brown; height 4 to 6 feet. Plant the seed in August for bloom in the Summer. Pkt. 25c.

Candidum, Madonna Lily. Probably the most popular of all Lilies. 8 to 10 lovely white blooms grow in a stately spire on a strong, straight stem 4 to 6 feet tall. Plant March or April outdoors, February under glass. Germination period 3 to 6 weeks. Flower in June. Pkt. 25c.

***Formosanum, Fall Regal Lily.** White trumpets shaded externally with violet; fragrant; 4-6 feet. Bloom September-October (first season if sown early). Pkt. 25c.

***Henryi, "Orange Speciosum."** Recurved golden yellow petals, spotted brown; one of the hardiest and best for cutting; 5-8 feet. Bloom August-September. Pkt. 25c.

GROW YOUR OWN EASTER LILIES

***Longiflorum Praecox White Queen, Easter Lily.** Since the war Easter Lilies have been scarce. This variety is relatively easy to grow and preferable to the bulbs now on the market. Has large, long, pure white trumpets; an improved form, taller than the type, and fine for cutting and garden shows, as well as Easter forcing; 2 feet. Blooms in one year from time of seed sowing. Pkt. 35c.

***Regale, Regal Lily.** The most popular lily in America, with large golden-throated white open trumpets tinted pink externally; very fragrant; easily forced in pots or grown outdoors; 4 feet. Bloom June-July. Pkt. 25c.

Shuksan. The best of the late Dr. David Griffith's hybrids; recurved rich orange, dotted black petals; vigorous and handsome, with many flowers in bloom at once; 4-5 feet. Bloom July. Pkt. 25c.

***Tenuifolium, Siberian Coral Lily.** The most popular dwarf lily for the garden and rockery; 10 to 20 dainty bright scarlet, nodding reflexed flowers to a spike; 18 inches. May-June. Pkt. 15c.

***Tenuifolium Golden Gleam.** Lovely new bright yellow form of the above. Pkt. 25c.

Washingtonianum, Mt. Hood Lily. Tubular white flowers, spotted purple in the throat, fragrant; 3-6 feet. Bloom June-July. Pkt. 25c.

***Willmottiae.** Recurved orange-red petals; grass-like foliage; one of the hardiest and most dependable species; 4-5 feet. Bloom July. Pkt. 25c.

LIMNANTHES douglasi. Meadow Foam. Partial shade.

White-and-yellow, fragrant flowers, effective in beds or edgings, in moist partial shade; native; 6 inches. Sow November to April. Pkt. 10c.

LINARIA, Toad Flax, Baby Snapdragon. .ly-nay'-ri-a. Sun.

Lavender, purple, pink, chamois, yellow, red, etc., miniature snapdragon-flowers, unusually fine for beds, ground covers, or mixed bouquets, in Winter and Spring. Sow September to February.

Campbell's California Wild Flower Mixtures

Will Grow Almost Anywhere, Cover Vacant Lots and Bare Corners, and Furnish Cut Flowers. An Ideal Souvenir!
Cultural Note: Best sown in late Fall in all climates, since they will bloom in late Winter and Spring in a mild region, yet lie dormant and sprout and bloom in early Spring in the cold sections of the United States. They may still be sown, with sure results, as late as April in Southern California, and June in the cooler sections. Broadcasting the seed, mixed with sand, over finely-pulverized soil in the open, is the best plan. Rake-in very lightly, or merely cover with scattered soil or peat. If in the Fall, do not water; if in the Spring when natural rainfall cannot be depended upon, keep moist until sprouted, and irrigate thereafter.

Campbell's Special Mixtures, in contrast to many cheap mixtures, contains only California natives. The two mixtures are alike (with more than 30 species represented, to give a long and interesting season of bloom), with this exception: There is no California Poppy in mixture No. 2, for those who may have these bright flowers already established.

Mixture No. 1, including California Poppies. Lb. \$7.50; ¼ lb. \$2.85; oz. 75c; ½ oz. 50c; Pkt. 10c.

Mixture No. 2. All varieties except California Poppy. Lb. \$8.50; ¼ lb. \$3.00; oz. \$1.00; ½ oz. 40c; Pkt. 15c.

Souvenir Collection of 10 dependable California Wild Flowers, in separate 10c packets, our selection. **Special for 75c.**

ZINNIA, CALIFORNIA GIANT

Zinnia

ZINNIA. zin'-ni-a. Sun.

Our Summer specialty. Pinks, reds, yellows, and purples, in vivid shades, unexcelled for Summer bedding and cut-flowers. Sow February to July. Germination period 5 to 10 days.

Cultural Note: Sow Zinnia seed where the plants are to bloom if this is at all possible; otherwise transplant when the seedlings are small. When watering, rather than use the sprinkler, irrigate by the trench method and let the water run slowly for several hours until it has soaked down thoroughly into the ground through and beyond the roots. You will then have maximum results, yet need to water the plants only once every two weeks if the top soil is properly cultivated a day or so after each irrigation.

PLANT VEGETABLES FOR A CONTINUOUS SUPPLY

It is often desirable and practical to extend the harvest period of certain quick maturing vegetables by making a succession of sowings. Thus, after the first sowing, a second one is made a week or two later and possibly a third or fourth so that as the first crop is harvested and gone the second will be ready to harvest. Most of this planning is guess work without some knowledge of the duration or time a crop is in condition for picking.

The following table is intended only as a guide in planning succession plantings, since exposure and weather conditions and the family needs of a crop make it at best an approximation.

| Variety | Harvest Lasts | Variety | Harvest Lasts |
|-----------|---------------|---------------|---------------|
| Beans | 4 weeks | Onions (sets) | 4 weeks |
| Beets | 6 weeks | Peas | 2 weeks |
| Carrots | 8 weeks | Radish | 3 weeks |
| Cucumbers | 4 weeks | Spinach | 2 weeks |
| Endive | 6 weeks | Sweet Corn | 10 days |
| Kohlrabi | 3 weeks | Turnips | 2 weeks |
| Lettuce | 6 weeks | | |

Care should be taken to observe the planting seasons in the chart at the left so that sowings are not made "out of season."

BULBS READY FOR DELIVERY FROM MARCH TO MAY

ABBREVIATIONS: L.D., Informal Decorative; F.D., Formal Decorative; S.C., Semi-Cactus.

RED

Ailsa Belle. I.D. Informal, of good size, on extra long stems. The color is raspberry red with a lighter reverse. \$1.00.

Deep Velvet. I.D. Deep rich velvety cardinal. Can be grown over 8 inches but will in most cases be a B dahlia. Long stems and a rugged grower. A real winner. \$1.50.

Mrs. George LeBoutillier. I.D. A rich velvety cardinal red; gigantic in size and outstanding in all respects. A healthy grower. 75c.

The Cardinal. S.C. A new prize winner. The brilliant cardinal red blooms, 10 to 12 inches across, are borne on long canelike stems. A real addition to any Dahlia collection. \$4.00.

ORANGE

September. I.D. Bush 5 feet. Tangerine orange with soft scarlet suffusion, giving it a rather even reddish Autumn tone. Rugged grower coming into bloom medium early. A very satisfactory dahlia. \$1.50.

Col. Little. I.D. 1946 Introduction. A very showy, brilliant scarlet-orange with curly, twisting deeply notched petals showing a lighter reverse. Blooms 10 to 11 inches across with excellent depth. On both Eastern and Western Honor Rolls. \$1.50.

WHITE

Great Lakes. I.D. Bloom 10x4; bush 4½ feet. An easy to grow white with early blooms very lightly tinted lavender at tips. Stems long and stiff. Winner of three Achievement Medals and on three Honor Rolls. \$2.50.

The Real Glory. F.D. A top notch pure white Dahlia. Free bloomer on strong healthy bush. Good keeper. \$1.25.

Jean Kerr. F.D. A medium sized white, unsurpassed as a cut flower of the formal type. Useful for exhibition. Free blooming. 75c.

BICOLORS

Dixie's Wine Dot. A-I.D.-Var. (Hendricks.) A variegated white, splashed with wine color. Blooms can be grown to 12 inches in diameter with corresponding depth. Winner of the American Home Achievement Medal at Chicago.

Silver Meteor. F.D. A very large, wide petaled flower in a most unusual color combination, lavender-mauve with silver reverse. \$2.00.

PURPLE

Kemp's Purple Triumph. I.D. Is a rich violet purple which can easily be grown up to 12x7 inches. Stems average about 7 inches above top foliage and are stiff and strong, holding the flower facing. Plant is prolific; foliage heavy and thick. \$3.00.

Town Topic. I.D. This variety has won many ribbons with its rich purple blooms. The crisp flowers are good keepers, about one-third of them tipped with white. \$1.00.

YELLOW

Kirsten Flagstad. Outstanding in the garden, producing large fine blooms very early and continuously throughout the season. The color is rich gold suffused lightly with apricot. Plants are tall, with flowers held well above the handsome foliage. \$1.50.

Salem Sunshine. I.D. Truly the clear light yellow of New England sunshine. Blooms 10 to 11 inches, bush 6 feet. The large fluffy, airy flowers bloom profusely on fine stems. \$1.00.

Sunburst. I.D. A big strong plant with a huge bloom of rich, deep yellow which keeps exceptionally well. A splendid late variety. \$1.25.

PINK

D-Day. F.D. A medium sized variety of true pink. A fine florists' flower and an excellent candidate for "best bloom" classes at shows. The flowers are well formed, with very good substance, and the stems are ideal. Plants are tall, open growers and productive. \$1.00.

Five Star General. F.D. A formal decorative blend of 11½ to 13 inches. Amaranth pink, blushing into a tyrian pink, then going into a maize yellow toward the center of the bloom. Sturdy plants growing about 6 feet tall. Excellent foliage. Listed on three Honor Rolls. \$3.00.

Kelvin. I.D. One of the greatest dahlias to come out of Australia. Blooms are large and massive, held facing up on strong stems. The color is buff, heavily suffused carmine rose, giving a general color effect of peach pink. Strong plants with exceptionally coarse, broad foliage. \$2.00.

Ogden Reid. I.D. Our selection for the best contemporary Dahlia. Countless huge blooms of a delightful pink "ashes of roses" blend on the strongest growing plant we have seen. A must for the Dahlia fan. \$1.50.

Sarret's Pink Flamingo. S.C. Outstanding with class at shows. Color is Tyrian Pink, center Empire Yellow and tips Roseline Pink. Blooms are well formed and of good substance on excellent stems. A free producer of flowers up to 11 inches across. \$2.00.

LAVENDER

Blue Horizon. I.D. The color is described as French Violet. Flowers large, with good depth. A very free bloomer. One of the best '45 Introductions. \$1.50.

Great Divide. S.C. In this charming variety, delicate pink-lavender blends beautifully into a rich yellow center. The flowers are huge and the plants strong. Performs well in the fall. \$1.25.

Mrs. Carl Salbach. I.D. A large, clear, delicate lavender on good stems. A splendid cut flower and good keeper. 50c.
